## What went well?

What should we keep doing? What should we celebrate? Where did we make progress?

> Estimation expenses in small business can be tricky

calculating business expenses is a different process from eeping track of them

**DIVYA N Estimation of business** expenses

vakilsearch accounting and bookeeping service

What went poorly?

Where did we have problems? What was frustrating to us or others? What held us back?

> rent, utilies, wages, salaries, insurance, cost of goods sold

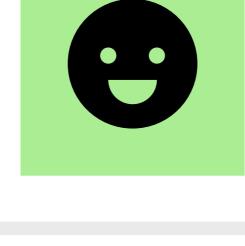

it includes both fixed and variable costs like labor, material, and capital

project and

and capital

budgeting

management

there are two types

calculatig expenses

2) digitally calculating

1)manually

expenses

•••

every project incurs various planned and unplanned expenses

it seem's similar

only then selling price and profit margins can be determind the latter is determind scientifically, it is not an

estimate

profit margins

## What ideas do you have?

What ideas do you have for future work together? Where do you see opportunities to improve? What has untapped potential?

See an example

## How should we take action?

What do you believe we should do next? What specific things should we change? What should extend beyond this meeting?
